Jiva Public School
a role model for the new
education policy

Dear Parent,

As you know that the Government of India has initiated the process of formulating a New Education Policy based on the ancient Indian knowledge and science, which lays particular emphasis on the all-round development of each child. For Jiva Public School, it is a matter of pride that we have already been working in this direction for the past 26 years. Our school has been at the forefront of providing a happy, caring and stimulating environment to children, where they recognize their true strengths and nature, and therefore achieve their full potential. Our teaching pedagogy helps in character building and creates holistic and well-rounded individuals equipped with the key 21st-century skills.

The aim of education in ancient India was not just to impart academic knowledge but also to develop a good human being capable of rational thought and thinking, possessing courage and resilience, scientific temper and creative imagination, with sound ethical values and principles. At Jiva, we are already following this interdisciplinary approach to learning. We integrate different programs and learning methods right from the earliest years of a child's life that help develop the character, behaviour and moral outlook of the students. The moral pillars of Dincharya Ke Niyam (DKM), Self, Others and Environment (SOE), and Swadhyay have positioned Jiva Public School at the pinnacle of education. The school has always aimed at guiding each student, channelizing their energy by identifying and nurturing their true nature, skill, potential and capabilities. This approach towards holistic development has made our students responsible and successful citizens of the society.

Since the inception of the school, we have always been committed to creating an environment, which helps the young mind to blossom and provides a platform for individual thinking and holistic development of a child's personality. With the new education policy in place and with your support, I am sure we will keep on providing excellent education to our students.

Wishing you health, happiness, and peace.

- Rishi Pal Chauhan

Director's message

**Every challenge opens up
a new opportunity**

Dear Parent,

Despite all the COVID-19 maladies, the pandemic disruption has brought awareness to new possibilities of delivering learning in the schools and in ushering young minds into the future on a more holistic level. The pandemic became a catalyst for us to search for innovative solutions in a relatively short period. The pandemic is also an opportunity to remind ourselves of the skills students need in this unpredictable world such as informed decision-making, creative problem solving, and perhaps above all, adaptability. The educators of Jiva turned this challenging situation into a new opportunity by focusing on building resilience in children and ensuring that they are prepared to face the difficult times.

Lessons learned from the sudden disappearance of the traditional classroom stage and the isolation of each learner in his or her own space made us realize that online learning technology could play a significant role in imparting knowledge to our students. To achieve that our teachers acquired new skills in online learning engagement. Our teachers quickly gave away the fear of technology and explored ways to integrate it into their pedagogy. Traditional in-person classroom learning was replaced by new learning modalities – digital apps, software, and online tools. To make the best out of the e-learning platforms, our teachers not only focused on academics but also taught life-skills to the students. Right from teaching different kinds of culinary skills to connecting the students with nature by planting trees and invoking their bodily senses and musical intelligence by activities like singing, dancing and Sanskrit shlokas, all the activities were well-thought and well-executed by our teachers through the digital platforms. We are so proud of our students who embraced virtual learning with full zeal.

What has been made clear through this pandemic is that every challenge opens up a new opportunity and we should embrace it. If online learning technology can play a role here, it is incumbent upon all of us to explore its full potential. I would also like to extend my sincere thanks to all the parents who have equally made this new learning experience a success for our students and teachers by adapting themselves to help the students.

With warm regards,

- Chander Lata Chauhan

**We believe in providing
'education for life' to
each child**

We at, Jiva, are a vibrant learning community with a warm and friendly atmosphere. Our mission is to provide our children with the best learning opportunities and programs. In my opinion, every child has his own possibilities to flourish. All he needs is an opportunity to identify his unique qualities and environment where his talent blooms. At Jiva, our aim is to identify this uniqueness and nurture each child according to his nature by imparting academic as well as skill-based education.

We believe in providing 'Education for Life' to each child, which encompasses not only knowledge but also, enhance the talents and life skills necessary for the holistic development of the child. We work hard and provide our students the right environment, which help in honing their skills thereby bringing out the best performance in them. I feel extremely happy to announce that the result for ISC and ICSE batch 2019-20 was 100% with many students scoring above 90s across the subjects. Besides achieving academic excellence, we also utilized the online platform in the best possible way amid the pandemic situation and exposed our students to a host of Inter-school and In-house Competitions with the submission of videos, voice clips, images, and live video performances. Our students proved their mettle by contesting at the global level too. Aayushman Choudhary was declared the Grand Prize Winner by contesting for International Google Code-in by J Boss Community, California. Krishitika and Akanksha participated in Wings of Peace - Model United Nations and received Special Appreciation Award. These are just a few, not to mention the list of Inter-school and In-house results.

With supportive management, dedicated teachers, caring and cooperative parents, we blend to create a child-centric school, where ethical values and social responsibilities are the hallmarks and we will continue to do so. Thanks for keeping the faith and confidence in us. Your faith in us is our driving force.

Warm Regards

- Mukta Sachdeva

Morning Virtual Assembly

Beginning the day on a note of unity and positivity, virtually

The morning assembly sets the day and paves the way for our students to rejuvenate their spirits, remain rooted to the moral values and unleash their vitality. Jivites start their day with the chanting of mantras in the assembly, seeking the blessings of the God. The morning prayer provide students with an opportunity to get centered, and to remind themselves the higher purpose of life. Therefore, we did not allow any situation to bring change in the morning routine of our students. We organized special morning virtual assemblies to celebrate the spirit of national days and festivals.

'Little reflections' of God on our Jiva Planet on the eve of Janmashtami

Beautifully dressed as little Radhas and Krishnas, Jivites showed their talent by dancing and singing bhajans to drench everyone in oodles of love, devotion and faith. The little cherubs prayed to Shri Krishna, while reciting shlokas on the virtual platform. This activity helped in the spiritual development of children.

Little nation lovers celebrated Independence Day with Pride!

To inculcate the spirit of patriotism in our proud Jivites, Independence Day was celebrated virtually with great enthusiasm. Children and teachers were dressed up in Tricolour dresses. Proud Jivites enhanced their creativity expression by performing patriotic songs, rhymes and role-play on freedom fighters. The energy of the children was oozing out of screen when they gave dance performances on patriotic songs.

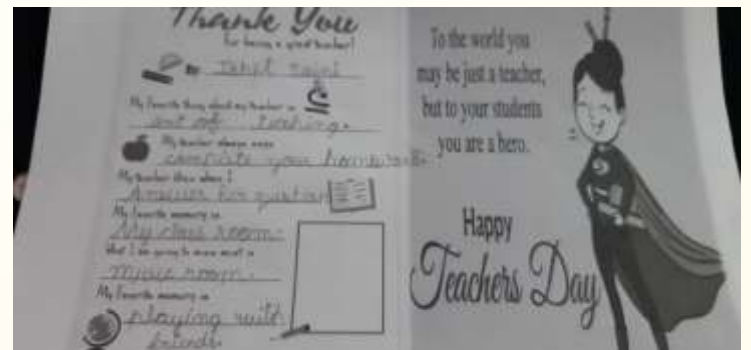

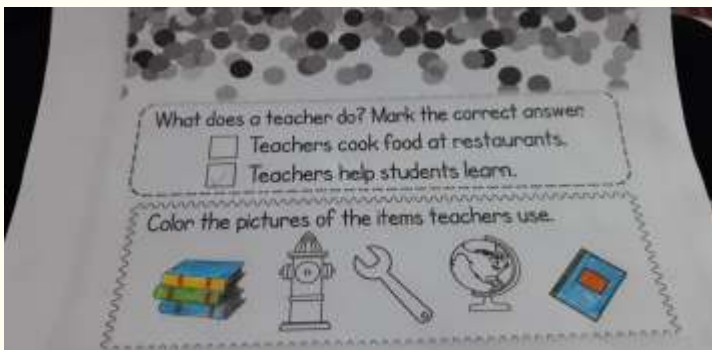

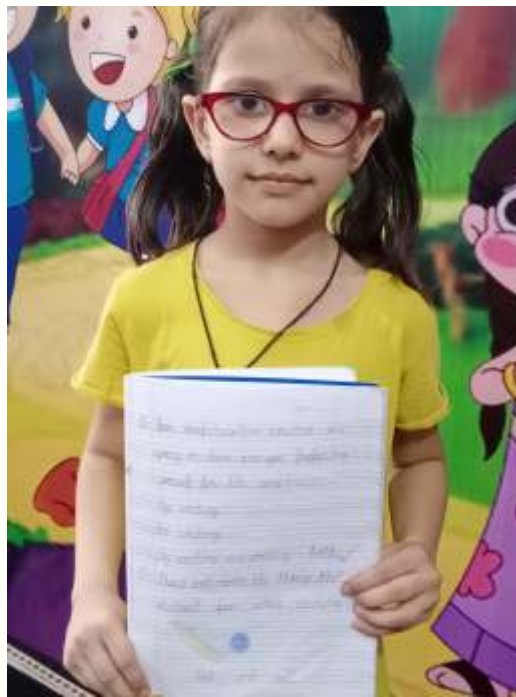

Jivites wished their teachers, a 'Happy Teacher's Day' in the cutest way!

To express gratitude and show their appreciation for the love the teachers shower on them, the little Jivites celebrated Teacher's Day in the cutest way. The students commenced the celebration by praying to the Almighty followed by poem recitation, 'Thank you' note for their teachers, mesmerizing dance performances, and Role Play. The teachers were truly touched by such innocent gestures and blessed the Jivites for a fruitful future.

SOE (Self-Others-Environment)

JIVA firmly believes in nurturing the young minds with its philosophy of SOE. SOE stands for Self-Others-Environment. By adopting 'S', the zealous Jivites introspect and identify the areas to bring improvement in themselves. The adoption of 'O' makes them more empathetic towards others. By adopting 'E', they try to bridge the gap between nature and themselves thus allowing them to become a nature-lover. To inculcate this as a habit, SOE questions are given to the students as a weekend activity. These questions are designed based on the current scenario and are aimed at developing the thinking skills, creative skills, and writing skills of the children. The last SOE emphasised on dealing with the Exam Stress as the Assessments were just around the corner. The tips to beat the exam stress were given to the children. It also motivated them to make their own study schedule while having frequent intervals for healthy meals and relaxation.

Activity Based Learning

Harnessing creativity in the young minds through different activities and competitions

A rich variety of curricular and co-curricular activities contributes to the overall development of the children while making their school life an enjoyable experience. The curriculum at Jiva offers a great blend of activities which cater to all the domains of development in the little ones. Through diverse fun activities such as fancy dress, poetry recitation, themes and festivals celebration, the Jivites are encouraged to express themselves, appreciate all the art forms and in the process, have fun. Our tiny tots didn't let the lockdown dampen their spirits. They participated in the activities organized by us through virtual platforms and mesmerized everyone with their confident and charismatic performances. Here are a few glimpses.

Colour Theme Days

Our tiny tots brought little sunshine into their homes while we celebrated YELLOW DAY & ORANGE DAY on the digital platform. Some interesting activities were conducted during their online classes. Teachers and kids came dressed in the theme coloured outfits, played one-minute games, learned making some interesting dishes in the theme colour, without using the fire, like mango shake, mango sandwich and carrot ladoos. Such activities help children enhance their motor skills and creative skills.

Invoking Blessings of Lord Ganesha

On the auspicious occasion of Ganesha Utsav, the students virtually gathered to invoke the blessings of Lord Ganesha with a special pooja. The online classes started with the schema of making Modaks, interesting Ganesha crafts, followed by dancing and celebrating the spirit of the auspicious day to seek the blessings of Bal Ganesha. These kinds of celebrations help in the spiritual development of children.

'In The Frozen World' Fancy Dress Competition

Students displayed their talents on the theme 'In the Frozen World' as they dressed up as Penguin, Polar Bear, Snowman, Reindeer, Ice Berg, and Snow. Their dynamic online presence, vibrant costumes and charming personalities speak volumes of their confidence at such tender age. Such activities bolster children's creative expression, self-esteem and interpretation skills – all of which can go a long way in empowering them.

Poetry Comes Alive Through Recitation

Our little darlings looked like a delight when they exhibited rhythmic performances using colourful props with proper intonation, amazing expressions and utmost confidence. Language development is yet another focus area for us and to achieve this, we teach the little ones through rhymes, poetries and songs. Such activities help children develop an ear for phonics and hone their memorization skills and public speaking skills.

Virtual Activities to Teach Kids Personal Hygiene

The pandemic situation has suddenly diverted our attention to practice regular health and hygiene habits like washing hands, eating healthy foods, and drinking plenty of water. Being an Ayur School, we teach our students lessons on personal hygiene and health right from their young age. Special activities were conducted on the virtual platform to teach kids how to make a homemade mask and herbal hand sanitizer. The teachers also conducted classes on topics like 'eating healthy, stay healthy' and motivated students to follow *Dinchharya Ke Niyam* at home in order to lead a healthy, happy, and disciplined life.

Virtual Competitions at International and National Level

Jiva has always set the benchmark for providing students the opportunities to participate in various inter-school competitions, which aimed at encouraging the students to lead a purpose-driven life, nurturing the spirit of creativity and innovation among participants. While staying safe at home, Jivites welcomed the opportunities and expressed their varied talents and skills in various events .

- YMCA Earth Week Challenge
- Online Talent Competition by ICICI
- Crest International Spell Bee Competition
- Inter School Quarantine Khoj by Modern School
- White Hat Jr Coding Competition
- Online Competition by Amity University
- Inter School Event Ray of Hope by Wilbur School, Sitarganj
- Online Competition "ABHIVYATI " by ISKCON Faridabad
- Paryavaran Utsav by The Shri Ram School
- Essay writing competition by Ministry of Education
- Cartoon-making Competition by Legal Literacy

Parents Feedback

“ I am thankful to all the teachers of the 'JPS' family. I appreciate their hard work and creativity. In the beginning, my daughter Krishti was a bit afraid of attending virtual classes but the teachers made her comfortable with their polite approach and unique style of teaching through different activities and programs. I extend my gratitude to the Principal Ma'am and all the teachers to provide excellent learning to our kids amid the pandemic situation.

Aarti Verma
M/O Krishti Verma LKG”

“ We would like to express our gratitude to the entire school staff to effectively continue the studies. The activities that you organize has sparked my son's interest in various activities. The online reading activity has significantly helped improve his speaking skills. The extra period is beneficial for kids as well as parents. Thanks for maintaining the positive approach and bringing out the best in our child through online classes.

Parminder Kaur &
Gurmeet Singh
Parents of Anant I C”

“ We are grateful to have such teachers at Jiva Public School who made the difficult transition from classroom to online learning possible with their dedication, guidance and support. All the videos and worksheets sent by the teachers were so good, easy-to-understand and informative. I must say that the online study programs and other engaging activities were well planned by the teachers. It totally reflects the kind of hard work they had put in.

Gurdeep Kaur
M/O Gurjas Singh UKG A”

“ I take this opportunity to thank the entire Jiva family who is dedicated towards educating the tiny Jivites. I appreciate the time, efforts and skills of the nursery teachers who handle these little naughty kids with utmost patience and creativity. It is truly remarkable that even during this pandemic situation, they are able to keep the students engaged on the digital platform.

Parents Feedback

“ Jiva is a perfect platform for our child’s growth and her better future. Jiva always aim to provide students a happy, caring and stimulating environment where children recognize their true strengths and nature and therefore achieve their fullest potential in order to make their best contribution to the society. The school staff is very caring and supportive. It was a pleasure to attend the first Virtual Parent-Teacher Meet. I was very well able to share my views and problems with the class teacher and got the solutions too. The study schedule is well-planned by the teachers and keeps my child engaged. I thank the school management for conducting the online classes, exams and P. T. M. I hope and expect that this would run smoothly in future also.

Sumit Kumar
F/O Divyanshi Kalgotra III C”

“ It has been ten years since I am connected to Jiva. I have always been satisfied with the management and studies with various extracurricular activities such as DKN, Jivananda exercise, swadhyay, etc., which really helps children build a good and responsible personality. Even in this situation of the global pandemic, the management is quite coordinated. Online classes are turning to be pretty successful for the children. Though the work of the parents has increased a bit, with parent-teacher coordination we could easily pass this lockdown.

There are many schools.
But there is **only one Jiva.**

Your child is unique. And you need a school that will cater to your child's individuality. To identify what makes him or her special.

We take pride in guiding children to discover their unique strengths and prepare them for all-round success in life.

Academic Mastery: Excellence in academics, higher order thinking skills and competitive edge

Life Skills: Problem solving, creative thinking, decision making, critical thinking, social skills, empathy, and so on

Character Building: High moral values, integrity, respect for each other through programs such as Swadhyaya, Dincharya Ke Niyam & SOE

Swadhyaya

Special program that gives Jiva students opportunities to self-explore and introspect

Hands-on Astronomy

Jiva students exploring the wonders of Astronomy with state-of-the-art equipment

School Elections

Students choosing their own leaders and experiencing democracy up close
